- WordPress
- Figma

LANGUAGE

- English
- Hindi

PROFILE

Frontend Web Developer with a BCA from Govt. Holkar Science College, skilled in HTML, CSS, JavaScript, React, Tailwind, WordPress, and Figma. Passionate about building modern, user-friendly websites and aiming to grow into a Full Stack Developer.

PROJECT

Zerodha cloan   **Github**
HTML, CSS

Developed a Zerodha clone using HTML and CSS, replicating the landing page design with a clean and responsive layout. Applied Flexbox and Grid for structure and styling while ensuring cross-device compatibility. This project helped strengthen my skills in UI design and responsive web development

Currency Convertor   **Github**
HTML, tailwind, React

Built a Currency Converter application using HTML, Tailwind CSS, and React, integrating a live currency exchange API. Implemented real-time conversion between multiple currencies with a clean and responsive UI.

QUIZ APP   **Github**
HTML, CSS, React

Developed an interactive Quiz App using HTML, CSS, and React, featuring dynamic question rendering and instant score calculation. Designed a responsive UI for a smooth user experience across devices. This project strengthened my knowledge of React hooks, state management, and component-based architecture.

HOBBIES

- Cricet
- pop music
- Anime
